

TETHERFI INTELLICALL

AI-powered Collaboration Platform for Enterprises

Modernize your enterprise telephony with AI
Bring voice, video, text and digital interactions into one scalable, secure and seamless collaboration platform.

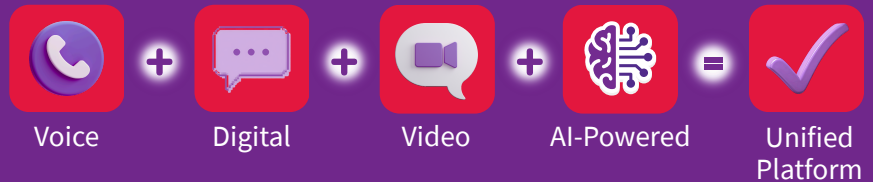

The Problem

Traditional telephony systems are:

- ✗ Siloed and outdated
- ✗ Lacking intelligence and insights
- ✗ Difficult to integrate with digital channels
- ✗ Costly to scale and maintain

The Solution

Tetherfi IntelliCall natively unifies Voice, Video, Text & Digital channels into one powered AI platform- built for Employee and Customer Engagement

USE CASES

Digital Banking & Secure Communication

Video Interaction

Remote Workforce Enablement

Employee Collaboration

BUSINESS OUTCOME

- ✓ Faster issue resolution
- ✓ Higher customer satisfaction
- ✓ Lower operational cost
- ✓ Better agent performance

KEY DIFFERENTIATORS

AI Built-In
(Not Add-On)

Native transcription, sentiment, and analytics

True Omnichannel Voice Layer

Supports WebRTC, mobile, and traditional telephony

Deployment Flexibility

On-premise for compliance + cloud scalability

Enterprise Integration Ready

Works with CRM, contact center, and backend systems
